PROFESSIONAL SUMMARY

Senior Full Stack Software Engineer with 6+ years of experience designing, developing, and deploying enterprise web applications using React, Angular, C#, .NET, Node.js, SQL databases, AWS, and Microsoft Azure. Experienced in scalable APIs, modern frontend architectures, CI/CD pipelines, microservices, system integration, code reviews, and cross-functional collaboration.

TECHNICAL SKILLS

Frontend: React, Angular, TypeScript, JavaScript, HTML, CSS

Backend: C#, .NET, ASP.NET Web API, Node.js, Java, Spring Boot

Databases: SQL Server, PostgreSQL, MySQL, Oracle

Cloud & DevOps: AWS, Microsoft Azure, Docker, Kubernetes, CI/CD Pipelines, Git

Practices: Clean Code, SOLID Principles, Agile/Scrum, Code Reviews, Microservices, REST APIs

EXPERIENCE

Senior Full Stack Software Engineer

2026 – Present

Civix

Remote

- Designed and developed end-to-end enterprise web application features using React, JavaScript, C#/.NET, and Azure cloud services.
- Managed CI/CD pipelines, supported deployments, and contributed to cloud-based integrations.
- Performed code reviews, collaborated across cross-functional teams, and promoted clean code, scalability, and maintainability.
- Supported team coordination, technical decision-making, and delivery of high-quality software solutions.

Senior Full Stack Software Engineer

2025 – 2026

IT Solved, Allied Global

Guatemala City, Guatemala

- Developed end-to-end features for an enterprise web application using C#, .NET, and ASP.NET Web API.
- Integrated frontend components with backend services and relational databases.
- Designed and implemented scalable, maintainable APIs and business logic to support complex workflows.
- Collaborated with QA and product teams to improve code quality and reduce regressions in production.

Senior Full Stack Software Engineer

2024 – 2025

Itemize, Allied Global

Guatemala City, Guatemala

- Led a team of software engineers to develop and deploy a complex application using React, Redux, Node.js, AdonisJS, PostgreSQL, and MySQL.
- Designed and developed a highly available financial operations web application using AWS cloud technologies.
- Developed unit tests and implemented automated testing to increase code coverage.

Senior Full Stack Software Engineer

2023 – 2024

Infile

Guatemala City, Guatemala

- Developed REST APIs and implemented authentication protocols such as OAuth to securely expose data to clients.
- Built automated scripts to reduce manual effort and improve operational efficiency.
- Developed microservices for legal digital document applications, including bills, invoices, and related workflows.
- Created and maintained CI/CD pipelines for application delivery.

Full Stack Software Engineer

2022 – 2023

Conduent

Guatemala City, Guatemala

- Designed and developed scalable, high-availability web applications using Angular and C#.
- Implemented a microservices architecture to improve system modularity and reduce dependencies between components.
- Collaborated with cross-functional teams to deliver features for enterprise applications.

Full Stack Software Engineer

2021 – 2022

DocuNect, Cari.Net

Guatemala City, Guatemala

- Created RESTful APIs to support seamless integration with external applications using C# and .NET.
- Developed full-stack web applications handling concurrent users with minimal downtime.
- Implemented responsive designs to improve usability across multiple devices.
- Built solutions for legal document lifecycle management applications.

Full Stack Software Engineer

2020 – 2021

BDG

Guatemala City, Guatemala

- Developed a microservices architecture that improved system modularity and reduced dependencies between components.
- Built full-stack web applications with modern user interfaces focused on internal banking workflows.
- Developed RESTful APIs that connected internal applications with existing company systems, reducing data processing time.

EDUCATION

University of San Carlos of Guatemala

Guatemala City, Guatemala

Computer Science and Systems Engineering

2015 – 2022

La Salle

Guatemala City, Guatemala

Bachelor's Degree in Computer Science

2013 – 2014

AWARDS & ACHIEVEMENTS

Third Place – XIII Inter-University Science and Technology Olympiad

2018

Second Place – Huawei Seeds for the Future Competition

2019

LANGUAGES

Spanish: Native

English: Professional working proficiency
